

## Helping with Disaster Recovery

**BenefitsCheckUp is a free service that makes it easy to find benefits programs you may need—all in one place.**

Local, state and federal programs can help you with rent, heating bills, meals, prescription drug costs and more. The programs already exist.

BenefitsCheckUp® can help you find and get the benefits you deserve. Completing a BenefitsCheckUp questionnaire only takes a few minutes. It's free and confidential.

**BenefitsCheckUp can find you benefits that pay for:**

- Heating (and cooling) bills
- Rent
- Meal services and nutrition
- Legal matters
- Prescription drugs
- Medical costs
- Property tax rebates
- Veteran's benefits
- Alzheimer's care

**It can also help you find:**

- Answers to Social Security questions
- Job opportunities
- Programs for the deaf and hard of hearing
- Volunteer work

**Here's how.**

On your own, or with someone's help, use a computer to connect to the Internet. The site address is [www.BenefitsCheckUp.org/recovery](http://www.BenefitsCheckUp.org/recovery).

Then, just fill out the BenefitsCheckUp Comprehensive questionnaire to find the benefits you're looking for. In just a few minutes, you will get a report telling you all the federal, state, and local benefits you may qualify for. Or, you can use BenefitsCheckUpRx to find which programs can help save you the most money on your prescription drug costs. In some cases, you can apply or enroll in these programs online.

*It's simple. It's fast. It's free. And it's confidential.*

*BenefitsCheckUp® is a service of the National Council on Aging (NCOA). Founded in 1950, NCOA is a national non-profit organization dedicated to improving the health and independence of older persons and to increasing their continuing contributions to communities, society and future generations. In many areas of the country, NCOA works with local partners to reach out and help seniors find the benefits they deserve.*
